

**EVERYTHING YOU NEED
TO START FISHING TODAY!™**

20 years ago we created Ready2Fish®, the original and complete combo fishing system.
We make fishing affordable, fun and easy for families and weekend anglers.
No matter what type of fishing, location or species you're after, R2F® has the solution.

QUALITY

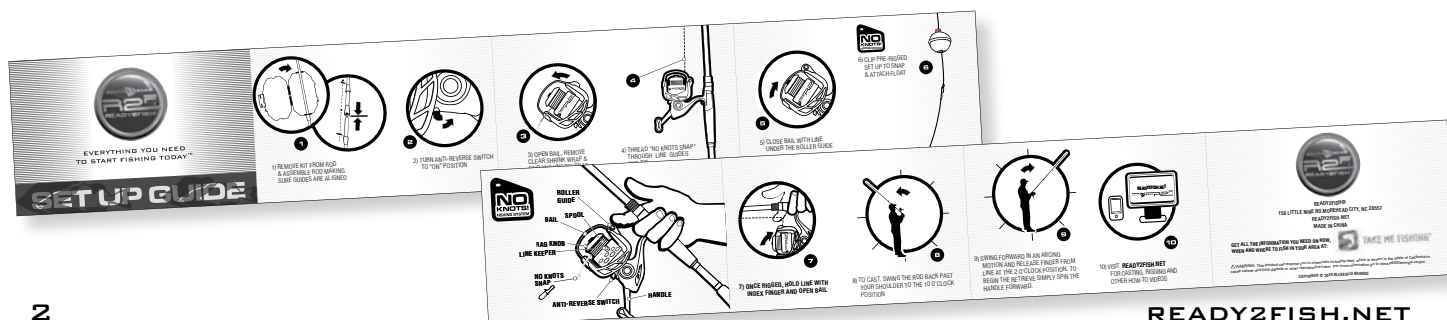

The Ready2Fish® system matches the appropriate rod and reel for each fish specie, or more generally, for an application or environment such as Salt or River fishing. Next we add a selection of basic tackle matched to the fish specie or application. Our color-code system for combos and lure kits make it easy to pick your application or species and GO!

SUPPORT

We understand the pure joy that comes from landing that first fish. Our goal is to help anglers achieve this goal and get hooked on fishing. Each species of fish presents it's own unique set of challenges. Ready2Fish will help you with the basics but we will also take you through a few additional techniques to expand your versatility.

Check out www.ready2fish.net in the "How-to" section by species to find additional diagrams and videos.

INNOVATION

Ready2Fish® is the industry leader! We always deliver the best solutions for anglers that are new to the sport. Our latest models include proven innovation such as our Tri-Core Rotor and inverted reel seats that deliver enhances durability and sensitivity to our combos.

NO-KNOTS

The **Just Add Bait** series of combos has a new feature that most beginning anglers never consider. Tying on your first hook can be a daunting challenge. We have fixed that by including a snap that is already tied onto your line. Simply thread the rod, clip on a sinker or bobber, snap on a rig, bait up and go!

INVERTED GRIP

The inverted grip on the new Ready2Fish® isn't just a stylish, modern touch. The design actually allows anglers to have a better feel by connecting you directly to the rod blank. Nothing beats the feeling of a fish taking the bait and with our new inverted grips, you won't miss a thing!

EASY TRANSPORT KIT

The Ready2Fish® tackle kits have always included the best tackle choices for the beginning angler. Our newest tackle kit includes a clever connecting system that attaches directly to the rod for storage. Simply lay your rod into the central slot and snap the tackle kit closed and it is attached to your rod and ready for your next adventure.
